ADDENDUM NO. 1
2020/2021 ASBESTOS ABATEMENT
Stevensville Schools Improvement Project
300 Park Avenue
Stevensville, Montana

SUBMITTED BY: Northern Industrial Hygiene, Inc.
March 2, 2020

TO ALL PLAN HOLDERS OF RECORD

The following project related information shall be added to the project documents. Contractor must acknowledge receipt of this Addendum on the Proposal Form.

GENERAL

This addendum adds: the collection of door barricade hardware in abatement areas that will be delivered to the school district, the removal and disposal of floor tile in two locations, the removal and disposal of an asbestos-containing countertop in one location, adds an Alternate Bid for the removal and disposal of asbestos-containing lab countertops in additional locations, and addresses questions asked at the pre-bid walkthrough.

The addendum also modifies the schedule and scope of work presented on Drawings H101, H102, H105 and H106.

The addendum corrects errors in the Prevailing Wages table.

Questions & Answers

Question #1: How wide does the wood strip supporting the termination bar on the membrane roof need to be?

Answer to #1: The wood strip that will be added to support the termination bar needs to extend to the bottom of the termination bar. The bottom edge of the wood strip should be cut straight. Note: The present termination strips are installed with fasteners in every other hole of the termination strip. They should be re-installed in the same fashion.

Question #2: Where floor tile and mastic are removed in the Hallways, how clean does the floor tile cut in front of the lockers need to be?

Answer to #2: The tile should be cut flush to the toe of the lockers and should not leave any tile extending into the hallway. The tile can be broken and removed under the locker.

Question #3: Is there an underground sprinkler system in the lawn areas around the schools?

Answer to #3: Yes. If there will be traffic on the lawns, identify any damaged heads or broken lines prior to the start of work. The abatement contractor will be responsible for repairing broken heads or lines broken by their operations.

Question #4: Does the quantity of windows (ACM window caulk abatement) refer to the number of window units or window openings to be abated?

Answer to #4: The window caulk abatement in each room refers to the perimeter of the entire window opening in each classroom.
END OF ADDENDUM NUMBER 1
SECTION 00300 - FORM OF PROPOSAL
Revision 1

Stevensville Public Schools
300 Park Avenue
Stevensville, MT 59870
Attention: Dr. Robert Moore

The undersigned, having familiarized myself with the conditions of the Work, having examined the Contract Documents titled:

2020 / 2021 Asbestos Abatement
Stevensville Schools Improvements
300 Park Avenue
Stevensville, Montana

as well as the site of the proposed work, and being familiar with all of the conditions affecting the proposed project, hereby proposes to provide all labor, supervision, materials, tools, equipment, apparatus and appliances required to conduct asbestos abatement and perform all work associated with the abatement as required by, and in strict accordance with, the Contract Documents and all applicable regulatory requirements, at the prices stated below.

**1.02 CONTRACT**

If the undersigned is notified of the acceptance of this proposal within thirty (30) days of the time set for the opening of bids, the undersigned agrees to execute a contract for the above work, for a compensation computed from the above sums, in the attached Contract Documents as modified by Owner.
1.03 TIME OF COMPLETION

The undersigned agrees to apply for a State of Montana Asbestos Permit as soon as Notice to Proceed is provided and that all work shall be done in accordance with said Contract Documents.

The asbestos abatement will be conducted in six phases:
- Phase 1 scheduled for March 30 – April 10, 2020
- Phase 2 scheduled for June 10 – June 26, 2020
- Phase 3 scheduled for November 2 – November 13, 2020
- Phase 4 scheduled for March 1 – March 10, 2021
- Phase 5 scheduled for April 5 – April 21 and May, 2021
- Phase 6 scheduled for June 7 – June 25, 2021

1.04 LIQUIDATED DAMAGES

The undersigned agrees to pay as fixed, agreed liquidated damages, the sum stipulated in the above referenced Contract as Modified ($250), for each consecutive calendar day after the date established for Substantial Completion of the Work in each phase remains uncompleted.

1.05 ADDENDA

The undersigned acknowledges the receipt of the following addenda:

SECTION 00500 – CONTRACT
Revision 1

Part 1 - General

DESCRIPTION

The Owner intends to execute an agreement with the Contractor for this construction project of limited scope where the Basis of Payment is a stipulated sum.

THIS AGREEMENT is dated as of the _____________ day of ___________ in the year 2020 by and between Stevensville Public Schools, Stevensville, Montana, (hereinafter called OWNER) and _____________________________hereinafter called CONTRACTOR).

OWNER AND CONTRACTOR, in consideration of the mutual covenants hereinafter set forth, agree as follows:

ARTICLE 1. WORK

CONTRACTOR shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows: 2020 / 2021 Asbestos Abatement – Stevensville Schools Improvements, Stevensville, Montana and involves the removal and disposal of hazardous materials as follows:

High School - Removal and disposal as asbestos: cement asbestos board soffits and fascia, cement asbestos board window infill panels, window frame caulking, insulating mud/cement on boiler segment seams, boiler gaskets, mudded fittings, vault door, and floor tile and associated mastic in multiple areas of the school building. It also includes the removal and disposal of non-asbestos carpet in selects areas where floor tile and mastic work is scheduled.

Elementary School - Removal and disposal as asbestos: cement asbestos board soffits, and floor tile and associated black mastic in select areas of the school building.

ARTICLE 2. ENGINEER

The Project has been designed by: Northern Industrial Hygiene, Inc., 201 South 30th Street, Billings, MT 59101, who is hereinafter called ENGINEER and who is to act as Owner’s representative, assume all duties and responsibilities and have the rights and authority assigned to ENGINEER in Article 8 in connection with completion of the Work in accordance with the Contract Documents.

ARTICLE 3. CONTRACT TIME

After the Owner provides the Notice to Proceed the Abatement Contractor shall apply for the required State of Montana Asbestos Abatement Permit.

The asbestos abatement will be conducted in six phases:

- Phase 1 scheduled for March 30 – April 10, 2020
- Phase 2 scheduled for June 10 – June 26, 2020
- Phase 3 scheduled for November 2 – November 13, 2020
- Phase 4 scheduled for March 1 – March 10, 2021
- Phase 5 scheduled for April 5 – April 21 and May, 2021
- Phase 6 scheduled for June 7 – June 25, 2021
For work scheduled in May during Phase 5, the Abatement Contractor shall have 5 working days to complete the work and must mobilize to the site within 7 calendar days from notice to proceed.

The work in each phase, including final air clearance monitoring and removal of the containment barriers will be substantially complete upon the specified date.

Contractor undersigned agrees to pay as fixed agreed liquidated damages; the sum of two hundred fifty dollars ($250) for each consecutive calendar day after the date established for Substantial Completion of the specified Work in each phase remains uncompleted.

ARTICLE 4. CONTRACT PRICE

Asbestos Abatement

OWNER shall pay CONTRACTOR for completion of the asbestos abatement work in accordance with the Contract Documents in current funds as follows:

Base Bid

LUMP SUM AMOUNT OF _________________________________ (or as modified by mutually agreed written change order) upon completion and acceptance of the Work.

Alternate Bid #1

LUMP SUM AMOUNT OF _________________________________ (or as modified by mutually agreed written change order) upon completion and acceptance of the Work.

ARTICLE 5. PAYMENT PROCEDURES

CONTRACTOR shall submit Applications for Payment directly to the Owner Final Payment. Upon final completion and acceptance of the Work OWNER shall pay the full Lump Sum Contract Price as recommended by ENGINEER.

ARTICLE 6. INTEREST

All moneys not paid when due shall bear interest at the maximum rate allowed by law at the place of the Project.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS

In order to induce OWNER to enter into this Agreement CONTRACTOR makes the following representations:

CONTRACTOR has familiarized itself with the nature and extent of the Contract Documents, Work, site, quantities, locality, and all local conditions and Laws and Regulations that in any manner may affect cost, progress, performance or furnishing of the Work.

CONTRACTOR has studied carefully the inspection report, and accepts the technical data contained in said report and drawings upon which CONTRACTOR is entitled to
CONTRACTOR has obtained and carefully studied (or assumes responsibility for obtaining and carefully studying) all abatement documents (in addition to or supplement to the inspection report referred to in the paragraph above) which pertain to the site conditions at or contiguous to the site or otherwise may affect the cost, progress, performance or furnishing of the Work as CONTRACTOR considers necessary for the performance or furnishing of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents.

CONTRACTOR has reviewed and checked all information and data shown or indicated on the Contract Documents. No additional examinations, investigations, explorations, tests, reports, studies or similar information or data in are or will be required by CONTRACTOR in order to perform and furnish the Work at the Contract Price, within the Contract Time.

CONTRACTOR has correlated the results of all such inspection and abatement reports with the terms and conditions of the Contract Documents.

CONTRACTOR has given ENGINEER written notice of all conflicts, errors or discrepancies that he has discovered in the Contract Documents and the written resolution thereof by ENGINEER is acceptable to CONTRACTOR.

CONTRACTOR represents that it is not presently suspended or debarred or proposed for suspension or debarment by any government agency or regulatory agency.

ARTICLE 8. CONTRACT DOCUMENTS

The Contract Documents which comprise the entire agreement between OWNER and CONTRACTOR concerning the Work consist of the following:

Section 00050 – Invitation for Bids
Section 00100 - Instructions to Bidders
Section 00300 – Bid Form
Section 00500 – Contract
Section 00600 - General Conditions of the Contract
Section 00700 - Supplementary Conditions to the Contract
Section 01010 – Statement of Work
Section 02080 – Asbestos Abatement
Amendment A – Montana Prevailing Wage Rates 2020
Exhibit A – Rules of On-Site Conduct
Drawing Sheets H101, H102, H103, H014, H105, H106, H107
Addenda

ARTICLE 9. MISCELLANEOUS

No assignment by a party hereto of any rights under or interests in the Contract Documents will be binding on another party hereto without the written consent of the party sought to be bound, and in the event of a proposed assignment by the CONTRACTOR, prior written consent to such must also be given to its Surety; and specifically but without limitation moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment no assignment will release or discharge the assignor.
from any duty or responsibility under the Contract Documents.

OWNER and CONTRACTOR each binds itself, its partners, successors, assigns and legal representatives to the other party hereto, its partners, successors, assigns and legal representatives in respect of all covenants, agreements and obligations contained in the Contract Documents.

This Agreement shall be governed by the laws of the State of Montana. The parties agree that any litigation concerning this Agreement will be brought in Ravalli County District Court.

ARTICLE 10. OTHER PROVISIONS

See General Conditions of the Contract and Supplementary Conditions to the Contract.
SIGNATURE PAGE

IN WITNESS WHEREOF, OWNER and CONTRACTOR have signed this Agreement in triplicate. One counterpart each has been delivered to OWNER, CONTRACTOR, and ENGINEER. All portions of the Contract Documents have been signed or identified by OWNER and CONTRACTOR.

This agreement will be effective on _________________, 2020.

Billings, MT 59101  
Telephone: (406) 245-7766  
Contact: Mr. Robert Brownell

1.3 GENERAL DESCRIPTION OF THE PROJECT

A. In general, the work consists of the following:

High School - Removal and disposal as asbestos: cement asbestos board soffits and fascia, cement asbestos board window infill panels, window frame caulking, a vault door, insulating mud/cement on boiler segment seams, boiler gaskets, mudded fittings, and floor tile and associated black mastic in multiple areas of the school building. It also includes the removal and disposal of non-asbestos carpet in selects areas where floor tile and mastic work is scheduled.

High School Gymnasium – Removal and disposal as asbestos: floor tile and associated mastic from two restrooms.

Elementary School - Removal and disposal as asbestos: cement asbestos board soffits, and floor tile and associated black mastic in select areas of the school building.

The asbestos abatement will be conducted in six phases as presented in Tables 1-7 of this section.

B. The specific scope of this abatement project, including estimated quantity of ACM to
be removed, is described below. The abatement work will consist of all work indicated in the Statement of Work and all work specified in the specifications. Briefly the work consists of the following:

1. Site Preparation: Includes construction of negative pressure containments, demarcation and isolation of the work areas, demolition as required to access materials to be abated, decontamination facility set-up, and other requirements as described in Section 02080.

2. Air Monitoring: Conduct personnel air monitoring on the Contractor's employees throughout the removal process as outlined under Section 02080.

3. Asbestos Removal and Disposal: Asbestos Abatement of the materials in Tables 1 through 7 and in accordance with the requirements of Section 02080 - Asbestos Abatement.

4. Proper decontamination of all asbestos abatement work areas and application of encapsulant.

Tables 1 – 7 indicate approximate quantities of asbestos-containing materials to be abated from the three school buildings as well as the phasing of the asbestos removal. The removal and disposal of fixtures, furniture, etc. required for access to the asbestos-containing materials scheduled for removal will be conducted by others unless noted otherwise on the drawings.

The Contractor is informed that the stated bid quantities of the work are assumed to vary plus or minus 10% from actual field conditions. Change orders will not be considered within this stated variance.

1.4 ORDER OF PROCEDURE

A. The Owner's schedule for the hazardous materials abatement is presented below.

Upon receiving Notice to Proceed, Contractor shall apply for State of Montana Asbestos Abatement Permit. Work on this project is scheduled to begin March 30, 2020. All work, including final clearance visual and air testing in areas where asbestos abatement work is performed is to be completed by the date presented for each phase.

B. Scheduling Plan: Submit a detailed sequencing/scheduling plan of the work proposed in complying with this specification. The Owner and/or Owner’s Representative must approve the plan prior to commencement of work.

C. Work Activity Sequence: Proceed with all work according to the sequences established under 02080 - Part 3 - Execution. Asbestos removal and clearance visual and air testing shall be limited to the approved time period and shall be conducted in accordance with the project schedule submitted and approved by the Consultant and the Owner.

D. Liquidated Damages: Contractor shall pay to the Owner the sum of $250 per day for each and every calendar days' delay in finishing the asbestos-related work under this contract beyond the stipulated contract times presented for each phase of the work.

1.5 SCHEDULE OF DRAWINGS

A. Hazardous Material Abatement drawings indexed below are the drawings referred to in
these specifications and the same are hereby made a part of the Contract.
