	@school --8:07	

***Federal transportation mandate requires facemasks on all forms of public transportation, including school buses. Should the guideline change, this procedure will be updated.**

Drop-Off Lane Guidelines

The parking loop in front of the buildings has been remodeled but will remain functionally the same until the south entrance (Phillips Street) is available for the K-8 students. To keep our students safe and traffic moving during drop-off times, Transportation Director, Paul Ludington, and frequently an administrator will be present. The hope is that this supervision staff will help ease the congestion in the area and make the area a safer place for our parents and students. We appreciate your help in this matter. The following are guidelines to help with this process:

The lane closest to the buildings is for bus traffic only. **Bus traffic will remain in this location at all times.** Do not park in this lane. This is especially important during bus loading.

Do not park in the bus loop during the day. This will allow for emergency vehicles and alleviate traffic congestion and back up onto Park Avenue.

The new parking closest to the buildings will be marked with temporary traffic control and will be available for student drop-off until we complete the new elementary parking area. Once the K-8 parking loop is complete and the new entry is open, K-8 student drop-off will be in front of the new elementary entrance. The temporary drop lane is for quick drop-off traffic only. Please do not stop or park in this lane. The left lane is for moving traffic only. Please do not drop a child in the left lane for their safety. Once you have dropped your child(ren) please merge left and depart.

Vehicles using the drop-off lane need to move forward (North) to allow space for cars entering from the street prior to dropping off students. PLEASE DO NOT STOP AT THE CORNER OF THE LOOP AS THIS CAUSES SEVERE CONGESTION. Due to traffic volume in the drop-off loop, vehicles must pull forward to avoid the hazard of blocking Park Avenue. Please remember that this traffic pattern is for your safety as well as the safety of our children.

***Important:** If you would like to **walk your child to their classroom, we ask that you please park street-side or in the leased parking at the corner of Park and 5th Streets.**

Please refer to the diagram on the next page for clarification.
